

# SMALL BATCH DETROIT

POWERED BY THE DETROIT FOOD ACADEMY

# OUR MISSION

**Detroit Food Academy** is a 501(c)(3) non-profit that works to inspire young Detroiters (ages 10-24) through culinary arts and food entrepreneurship. From cooking delicious healthy meals to facilitating complex conversations with community to developing artisan food projects, students learn by transforming their ideas into reality.

As an extension of Detroit Food Academy, we have three goals:

- **Offer meaningful employment and career opportunities** for youth to participate in workshops, obtain certifications, and assume new responsibilities and promotions.
- **Position young Detroiters to become healthy, connected, powerful leaders** as an essential component of this multi-pronged, food-rooted pipeline.
- **Have a lasting presence and impact on the lives of youth** by providing a sustainable, diversified funding stream for our not-for-profit organization.

Youth learn by managing every aspect of our businesses from the kitchen to grocery stores across the state. Businesses include:

- **Slow Jams**, local and seasonal jams
- **Mitten Bites**, granola bars featuring Michigan fruits and honey
- **Detroit Pop Shop**, gourmet ice pops made from local fruits and vegetables
